### Item 1: Calendar dates (fechas y calendario)

Ver el video [https://www.youtube.com/watch?v=L\\_rzvbkwYFw](https://www.youtube.com/watch?v=L_rzvbkwYFw) con vocabulario de meses y días.

Para responder a la pregunta “what day is it today?” (¿Qué día es hoy?) debemos conocer los números ordinales que vimos en la guía anterior.

Ya conociendo estos números, y los meses del año podemos decir la fecha con facilidad.

Ej.

- What day is today?
- Today is Friday, march the 19<sup>th</sup> (nineteenth)

Para cada día señalado en el calendario, escribe la respuesta completa, a What day is today?

Primero debe completar la frase.
